

Rainbow Sock Puppets

Materials Needed:

- Plastic bottle
- Food coloring
- Old sock / A sock missing its match!
- Rubber bands
- Dish soap
- Disposable bowl
- Water

Steps:

1) Cut a plastic bottle in half.

2) Cut the bottom of your sock off but leave enough room on the bottom to be able to fit over the part of your bottle with the top opening.

3) Slide the sock over the bottom of the bottle and secure it with one or two rubber bands.

4) Add about 1/4 cup of water to your bowl. Add several squirts (approximately 2-3 Tablespoons of dish soap and stir **gently**.

5) Add drops of food colouring all over your sock and then add dish soap all over the sock.

6) Now dip your sock inside the bowl of dish soap and water to get the surface of the sock wet.

7) Start blowing rainbow bubbles through the top of the bottle!

Tip!

If you want the colour of your rainbow bubbles as intense as the first, you will need to add more drops of food colouring to your sock. Then add more soap on top of the sock and dip again in the soap and water mixture.
